Chess Wizards

Chess Wizards is one of the nation's premier chess education companies. Our interactive, discovery-based curriculum inspires students to think ahead, visualize their goals, treat others with respect and to learn from mistakes. First, we let kids get the wiggles and giggles out with 10 minutes of free play and review of past taught topics. We then go right into the week's lessons. We separate students based on skill levels and teach different lessons best suited to their individual needs. All lessons have an activity and homework to accompany them and we have well over 80 different lessons to keep challenging our little wizards! Chess has been taught for thousands of years because of its emphasis on logic, tactics and sportsmanship. Develop knowledge of the basic game and the skills needed to play chess by overcome hesitations or apprehensions in taking on a new challenge. Enhance cognitive development, improve scholastic performance and boost confidence. Develop positive outward sign of self-accomplishment, success, and encouragement for others.
